

New Mexico-Congressman Harry Teague will continue his "Harry in Your Hometown" outreach program on Friday with events in Anthony and Las Cruces. "Harry in Your Hometown" is a community outreach program developed by Congressman Teague to help him stay in touch with constituents throughout New Mexico's second congressional district. Members of the public are encouraged to attend to share their thoughts and questions with Congressman Harry Teague and to learn more about how his office can help them solve problems with federal agencies.

While in Anthony, Congressman Harry Teague will also tour Rio Valley Biofuels. The plant uses recycled oil from local food processors as well as a large variety of lipid oil sources including crude cottonseed, UVO, tallow, sunflower, canola, soy, and other oil sources to produce the biofuels and is the Southwest's only commercial producer of biofuels.

While in Las Cruces, Congressman Harry Teague will visit recent regional science fair winners at Sierra Middle school. The students will show Congressman Harry Teague their winning project and he will take questions from the class. In May, the students will be taking a trip to Washington, DC to compete in the National Science Bowl competition.

All events are open press, please contact Sara Schreiber at 202-226-1140 or 202-579-8086 to attend.
